[NUMB. 924.]

☞ As the Publication of this *Gazette* every *Saturday*, is intended to be continued, no ADVERTISEMENTS will be taken in after *Friday Morning* for that Week.

LONDON, October 24.

IT is ſtrongly reported, that a bill will be brought in next ſeſſions of parliament, for repealing an act, which forfeits to the crown the goods and chattels of thoſe who commit murder upon themſelves, as it ſeems to puniſh innocent children for the crimes of their parents, and often induces a jury to bring in a verdict of lunacy, from compaſſion of the guiltleſs poſterity, which they would otherwiſe make 'Felo de ſe,' by which means ſuicide is not ſufficiently diſcouraged.— A crime which in this nation ſeems to be on the increaſe.

We hear from Leoſtoff and Yarmouth, that about a fortnight ago they had taken 50,000 barrels of herrings, and had near three weeks time to come of their fiſhing ſeaſon.

The Betſey Brigantine, Capt. Peirion, is loſt in her paſſage from the Canary-Iſlands for Carolina, but all the crew, except two, ſaved.

According to private letters from Peterſburgh, a certain propoſition has been made to the college of commerce, for facilitating the tranſportation of Rhubarb, by which its virtues will be much better preſerved, and conſequently the value of that commodity raiſed.

October 26. Yeſterday his majeſty held an extraordinary council at Kenſington on ſome important affairs.

We hear that a repreſentation of the preſent ſtate of the woollen manufactury in England, more eſpecially in the Weſt, will be made to parliament this ſeſſion, with the true cauſes of exporting our wool, the reaſons why all remedies, hitherto deviſed, have proved ineffectual, and a method propoſed infallibly to ſtop this dangerous evil.

October 29. We hear the land tax for the enſuing year will be reduced to 2 s. in the pound.

By a computation made for the year 1751, the dealers in all ſorts of grain have exported to Foreign parts to the amount of 300,000 l. beſides the allowance made on the bounty for exportation; and 'tis judged that by the 31ſt of December next, the ſame will amount to 380,000 l. occaſioned by the bad harveſts that have happened abroad.

Oct. 31. We hear that Monday the 9th, Thurſday the 12th, and Thurſday the 19th of December, are the days fix'd for the Duke de Mirepoix to entertain the royal family, nobility, foreign miniſters, and gentry at the Opera-houſe in the Hay-market, on account of the birth of the Duke of Burgundy.

We are informed, that a ſcheme for finding out the longitude, from the different variations of the needle in different parts of the globe, has been laid before the lords of the admiralty by Mr. Zachary Williams, an old and experienced mathematician; and their lordſhips have referred it to the conſideration of Dr. Bradley, regius profeſſor of aſtronomy at Greenwich.

The report that prevailed ſo ſtrongly in the Summer, that the buſineſs of the plantations would be thrown into a ſeparate department, for the facilitating the diſpatch of ſuch affairs as are of real importance to the intereſts of the Britiſh nation, begins to revive, and 'tis thought will be quickly accompliſhed.

Nov. 2. A grant has paſſed the great ſeal unto Henry Watſon, of his new invented machine for cutting and ſawing of marble and ſtone, and for poliſhing the ſame at one time, to him and his heirs, for fourteen years.

Yeſterday two gentlemen went to the ſeveral goals in this city, and the counties of Middleſex and Surry, and diſcharged from thence a great number of perſons confined for ſmall debts, and others that lay for their fees.

Yeſterday morning a bench of juſtices met at the Angel and Crown in Whitechapel, in order to take into conſideration the leſſening the great number of public houſes which ſtand on the road between Whitechapel bars and the bridge which parts Bow from Stratford; and we are aſſured, that all thoſe houſes, which ſuffer any ſkittles or other games to be play'd, will be deprived of their licences.

The States in the dyet of Sweden have directed a report to be made to them of the progreſs that has been made in all works of public utility ſince the laſt dyet, of the ſtates they are now in, and what grounds there are to hope they may be compleated; as alſo what propoſals have been ſince made for improvements in agriculture, gardening, mines, manufactures, navigation, and commerce, in order to ſettle the neceſſary funds for carrying ſuch of them as ſhall be approved into immediate execution.

A Sloop of war, ſtationed off New-England, is ordered home; and a man of war of 40 guns, and a Sloop of war, with three victualling veſſels, are ordered to be ſtationed at Nova-Scotia.

November 5. We hear that there will be a new regulation concerning the duties payable on Tobacco the next ſeſſions of parliament.

Letters from Turin acquaint us, that M. de la Chetardie is re-called and, ſome ſay, will be appointed to an embaſſy that will occaſion no ſmall ſurprize to the world; which report, however, creates no great uneaſineſs, ſince the late convention between the courts of Vienna and Madrid, ſeems to have fixed the tranquility of Italy out of the reach of danger.

Yeſterday two tranſports, with warlike ſtores on board, for Nova-Scotia, fell down the river in order to wait the joining of ſome others going for the ſame Colony.

Nov. 7. They write from Breſt, that M. Dubois de la Motte, the new governor of St. Domingo, who arrived there in July laſt, is ordered to repair all the fortifications in that Iſland, and to make new works in particular at France's port, beſides other places. They add, that they had juſt launched at Breſt a new fine ſhip of 74 guns, which is called the Enterprizing, and have 3 more capital ſhips in readineſs to launch.

We hear that Sir Henry Penrice, judge of the high court of admiralty, reſigned the ſaid office a few days ſince; He is ſucceeded therein by Dr. Thomas Saluſbury, chancellor of Landaff.

We hear that there is a great demand for corn in ſeveral parts of Italy, particularly in the Eccleſiaſtical State, and that conſiderable orders are ſent thither and elſewhere, for a ſupply.

The right hon. the lord Anſon is appointed high ſteward of Plymouth.

We hear a bill will be preſented to parliament, for the better regulating of juries.

On Monday and Tueſday, the nine buſſes in the ſervice of the Britiſh fiſhery in Yarmouth roads arrived in the River.

By the convention lately concluded between the courts of Vienna and Madrid, and to which their Sardinian and Sicilian majeſties, with the dukes of Parma and Modena, will accede, the dominions of all the contracting
